## *Tutoring Services Offered*

The East Central Ohio Educational Service Center is excited to offer tutoring in general reading, math and other subject areas specific to the needs of your child.

All general tutoring sessions will be taught by certified staff and are currently offered at our New Philadelphia location.

We are also featuring tutoring for reading, using the Orton-Gillingham approach.

## *What is Orton-Gillingham?*

The Orton-Gillingham theory combines multi-sensory techniques along with the structure of the English language to help struggling readers acquire the necessary strategies needed to read successfully. Multi-sensory education incorporates the three learning pathways, which include auditory learning, visual learning and kinesthetic learning. In each tutoring session, students will be practicing seeing words, speaking and creating word sounds, and doing an activity where they will create or manipulate words or word parts.

Orton-Gillingham is a proven, effective approach in helping dyslexic or struggling readers find success!

Orton-Gillingham trained teachers will work one-on-one with students during the 60 minute tutoring session. The cost is \$30.00 per session.

*Orton-Gillingham...a proven approach to success.*

## *Parent Testimonials*

*"My son always seemed to struggle with reading. Since participating in Orton Gillingham, he has learned new skills to help him better decode words. Getting him to do his nightly reading isn't a challenge anymore and he is excited to tackle books and share his knowledge with me."*

*"My daughter looks forward to her tutoring with the Orton-Gillingham teacher. She went from a "C" to an "A" in reading in her second nine week period. She is excited about learning to read since she began this program."*
